PRODUCT DEVELOPER BRIEF

Compliance & Business Registration Platform

Prepared by: Princess King | The Brand Fixer | June 2026

1. PRODUCT OVERVIEW

We are building a web and mobile application that serves as a one-stop compliance and business registration portal for Nigerian entrepreneurs and business owners.

The client interacts with a clean, professional interface to select services, pay, submit documents, and receive their completed documents — without visiting any government office or chasing any agent.

Behind the scenes, The Brand Fixer team processes all jobs manually using existing government portals (CAC, FIRS, NAFDAC, etc.). The platform automates the entire client-facing experience while backend operations remain human-executed by our team.

2. CORE USER FLOW

- Step 1: User lands on platform and browses all available services
- Step 2: User selects a service category (e.g. CAC Registration)
- Step 3: User selects a sub-type (e.g. Business Name, LTD, NGO)
- Step 4: User sees price, delivery timeline, and what is included
- Step 5: User clicks Get Started and creates an account or logs in
- Step 6: User selects payment option: Full payment or Installment (minimum 50%+ to begin)
- Step 7: User completes a dynamic form — fields change based on service selected
- Step 8: AI assistant confirms submission, states expected delivery timeline, and outlines next steps
- Step 9: Admin dashboard receives the job with all submitted client details
- Step 10: Assigned staff member picks up the job from their personal staff dashboard
- Step 11: Staff processes the job on the relevant government portal
- Step 12: Staff uploads completed documents to the client's dashboard
- Step 13: Client receives email + in-app notification: Your documents are ready
- Step 14: Client downloads documents from their personal document vault anytime

3. PROGRESS BAR STAGES

The client-facing progress tracker (similar to a delivery app tracker) moves through the following stages:

- RECEIVED — Order and payment confirmed, job logged in system

- FILING — Staff has picked up the job and is actively working on it. If installment payment was chosen, RED warning notification triggers here: client must complete balance payment to proceed
- SUBMITTED — Job has been submitted to the relevant government agency or portal
- PROCESSING — Government agency is processing the submission
- COMPLETED — Documents are ready. Client notified by email and in-app alert

4. PAYMENT LOGIC

Full Payment

- Client pays 100% upfront
- Work begins immediately after payment confirmation

Installment Payment

- Client pays minimum 50%+ of service fee to place order
- Work begins after first installment is confirmed
- When job reaches FILING stage, system automatically triggers a RED warning notification in-app AND sends an email reminding the client to pay outstanding balance
- Documents are held and not delivered until full payment is confirmed
- If balance is not paid within a reasonable window, admin can pause the job

5. STAFF / ADMIN SYSTEM

Admin Dashboard

- View full job queue: New, In Progress, Completed
- Assign jobs to available staff or let staff self-assign
- View all client details and submitted documents per order
- Upload completed documents — triggers automatic client notification
- Trigger delay notification (sends templated message to client explaining situation)
- Manage referral wallets — view earnings, approve payout requests
- Manage bank account opening requests — route to correct partner bank workflow
- Revenue dashboard — total transactions, pending, completed

Staff Dashboard

- Each staff member has a unique login code
- Staff sees available job requests in their queue
- Staff picks a job and begins processing
- Staff updates job progress stage (triggers client-facing progress bar update)
- Staff uploads completed documents when done
- Staff earnings are tracked per completed job — percentage varies by service value:

- Higher-value services (e.g. LTD, NGO, Trademark): 10% of service fee
- Lower-value services (e.g. BN, TIN, NIN Reprint): 5% of service fee

6. SERVICES — LAUNCH CATALOGUE

Category	Service	Fee (₦)	Timeline
CAC	Business Name (BN)	35,000	3 Hours
CAC	Private Limited Company (LTD)	60,000	7 Days
CAC	NGO/IT — Standard Package	150,000	14 Days
CAC	NGO/IT — Executive Package	200,000	14 Days
CAC	Cooperative Society	70,000	TBD
Intellectual Property	Trademark Registration	75,000	TBD
Tax & Financial	Tax ID Retrieval (TIN)	5,000	24 Hours
Tax & Financial	Tax Clearance Certificate	100,000	TBD
Tax & Financial	SCUML Registration	45,000	TBD
Trade	Export License	45,000	TBD
Identity	NIN Reprint	5,000	24 Hours
Banking	Corporate Account (standalone)	5,000	5-7 Days
Banking	Corporate Account (free with any CAC reg)	FREE	5-7 Days

Partner Banks: FCMB, Keystone Bank, First Bank, Zenith Bank

Note: NAFDAC, Import License, and additional services to be added in Phase 2

7. AI / LLM REQUIREMENTS

- AI assistant embedded throughout the client dashboard
- On order confirmation: auto-generate personalised message with service ordered, expected timeline, and what happens next
- FAQ handling: answers common questions about CAC, trademark, TIN, taxes, SCUML, export license
- Post-delivery next steps: after completing a service, AI suggests logical follow-up actions
  - Example: 'Now that your LTD is registered, here are your next steps: Open a corporate bank account, Register for TIN, Apply for Tax Clearance, Consider trademark protection for your brand'
- Delay communications: admin triggers a delay flag and system sends templated message to client explaining the situation

- Business Health Dashboard nudges: proactive compliance reminders when deadlines are approaching
  - Annual return filing due dates
  - Tax filing reminders
  - Trademark renewal alerts
  - SCUML and Export License renewal (if applicable)
  - Custom reminders based on registered business niche

8. REFERRAL SYSTEM

- Every registered user gets a unique referral link/code
- When a referred user completes a service payment, referrer earns a cash reward
- Earnings accumulate in an in-app referral wallet
- Minimum payout threshold must be reached before withdrawal is allowed
- Referral payouts are processed manually by admin or auto-approved above threshold

Service	Fee (₦)	Payout/Referral	Min. Payout	Referrals Needed
LTD Registration	60,000	5,000	15,000	3
BN Registration	35,000	3,000	12,000	4
NGO/IT — Standard	150,000	7,500	15,000	2
NGO/IT — Executive	200,000	10,000	20,000	2
Cooperative Society	70,000	3,500	14,000	4
Trademark	75,000	3,750	11,250	3
Tax Clearance	100,000	5,000	15,000	3
SCUML	45,000	2,250	9,000	4
Export License	45,000	2,250	9,000	4
TIN Retrieval	5,000	500	2,000	4
NIN Reprint	5,000	500	2,000	4
Bank Acct (standalone)	5,000	500	2,500	5

Referral % applied: ~5-10% of service fee depending on value tier

9. NOTIFICATIONS

Client-Facing Notifications

- Order received and payment confirmed

- Work has begun (FILING stage reached)
- Balance payment reminder — RED warning (installment clients only, triggers at FILING)
- Submitted to government agency
- Processing update
- Documents ready for download
- Delay alert — personalised message from admin
- Compliance reminders from Business Health Dashboard

Channels

- Email: All transactional notifications
- In-app notifications: All stages + compliance nudges
- WhatsApp Integration: Phase 2 addition

10. DOCUMENT VAULT

- Every client has a personal, secure document vault
- All completed documents are uploaded here by admin/staff on job completion
- Client can download their documents anytime, from any device
- Documents are permanently stored and accessible for the life of the account
- Future phase: auto-reminders when documents are approaching expiry dates

11. BUSINESS HEALTH DASHBOARD

After a client registers any service through the platform, their dashboard shows a live compliance health overview:

- CAC annual returns — due date and status
- Tax filing reminders — based on business type and niche
- TIN status
- Trademark renewal dates (if registered through platform)
- SCUML renewal (if applicable)
- Export/Import License status and renewal (if applicable)
- Compliance items relevant to the client's specific business niche

12. DESIGN DIRECTION

- Tone: Professional, calm, trustworthy — 5-star concierge feel for business compliance
- Trust signals must be prominent: number of businesses registered, partner bank logos, client testimonials, accreditation badges
- Progress bar must be visually prominent and update in real time when admin moves a job stage

- Mobile-first design — majority of Nigerian business owners access services via mobile
- Red/warning visual alerts must be unmissable for installment payment balance reminders

13. BANK ACCOUNT OPENING NOTES

- Every client who registers any CAC service gets a FREE corporate bank account opening (no extra fee)
- Standalone bank account opening (no registration): ~~₦~~5,000
- Partner banks: FCMB, Keystone Bank, First Bank, Zenith Bank
- Each bank has its own minimum opening balance — this must be clearly communicated to the client at point of ordering
- Bank account opening requests are routed to the correct bank's workflow in the admin dashboard
- Staff handling bank account openings will have access to partner bank portals or liaison processes
